
Zeus North America Mining Corp. Strengthens Commitment to U.S. Copper Supply Amid Potential Tariff Action

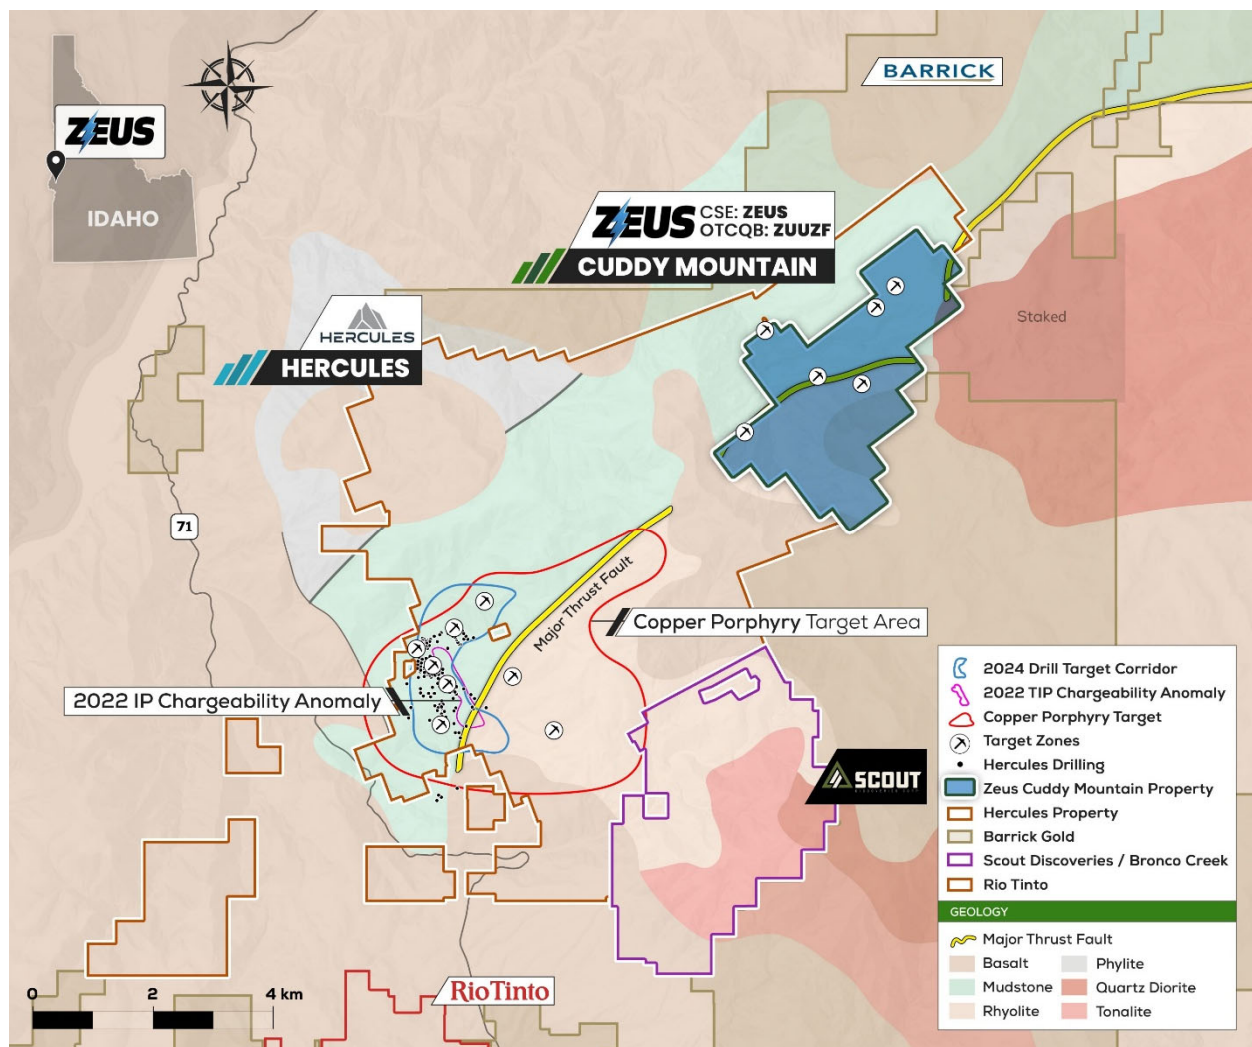

Vancouver, British Columbia, February 27, 2025 – Zeus North America Mining Corp. (CSE: ZEUS) (OTCQB: ZUUZF) (FRANKFURT: O92) (the “Company” or “Zeus”) announces that the Company remains dedicated to exploring and developing copper-silver deposits and future critical mineral supply within the United States of America (USA). Copper is a vital industrial metal, essential for sectors such as energy, infrastructure, and advanced manufacturing. The recent commitment by President Trump on February 24, 2025, to advance tariff actions against Canada and Mexico further underscores the importance of developing domestic sources to ensure long-term supply chain resilience.

“We recognize the potential impact these tariffs may have on the copper industry and stakeholders,” said Dean Besserer, CEO of Zeus North American Mining Corp. “As we continue exploring and developing copper projects in Idaho, USA we see this as a pivotal moment to reinforce the importance of domestic deposit development for future copper production in order to mitigate supply chain risks and reduce dependence on foreign sources.”

“With potential cost disadvantages for Canadian and other foreign explorers and producers, Zeus anticipates increased copper demand from industrial and government buyers seeking reliable, tariff-free copper. In addition to economic benefits, the Company’s exploration initiatives will drive job creation and local economic growth in Idaho, further solidifying the region’s role in strengthening America’s resource independence.”
